2 of 4: Refine Bid Notifications

What are commodity codes?

OpenBids commodity codes are how we categorize goods and services for government procurement. When you choose commodity codes, OpenBids uses them to match what your company provides to what governments in your subscription need, helping you find the best bids and quotes to bid on.

Take control of your bid notification experience and maximize your chances of finding opportunities that are tailored to your needs. Add your key tags here and let us assist you in uncovering the most relevant and valuable bid opportunities in your industry.

Example: Infrastructure, Automobiles, Dairy, Agriculture
