Project: Hickory Haven/Samary Forest Sewer Installation

RE: Community Meeting and Project Update

Dear Property Owner,

The Goochland County Department of Public Utilities is pleased to inform you that the field services work (survey, wetlands, environmental, and geotechnical) along with the engineering design of the above stated project is almost complete. As part of our ongoing efforts to keep you informed of our progress, we be holding a follow-up community meeting for **Tuesday, August 13th, 2019 at 6:30 p.m. at Company 3 Fire Station** (52 Broad Street Road, Manakin-Sabot, VA).

The agenda for this meeting will cover the engineering design of the new public sewer extensions, potential impacts to property owners, utility easements needed prior to construction, and anticipated construction timeframes. Representatives from our design engineering firm, Timmons Group, will also attend the meeting to answer any technical or design questions you may have regarding the proposed sewer extensions.

We sincerely hope to see you at the meeting, and in the meantime, feel free to send me any questions you may have at mlongshore@goochlandva.us or contact our office at (804) 556-5835.

Very respectfully,

Matt Longshore, P.E., Director of Public Utilities
mlongshore@goochlandva.us

Cc: Wayne Stephens, PE, Assistant Director of Public Utilities
Todd Kilduff, PE, Deputy County Administrator
