Project: Eastern Goochland Pump Station (EGPS) Forcemain Replacement Project

RE: Community Meeting

Dear Property Owner:

This letter is to inform you of an upcoming Community Meeting regarding the project to replace a portion of a sewer pipeline near your property. Replacement of this section of pipeline is in response to the sewer spill that occurred in July 2021, and the goals of this project are to increase reliability of the pipeline and to protect your property and the environment.

To minimize construction impacts to your property, a majority of the pipeline replacement will utilize a method called slip-lining, which entails installing a new, smaller pipeline through the existing pipeline while using strategic locations to access the existing pipeline. Additionally, several portions of the pipeline will be replaced using traditional open-trench construction where slip-lining has been determined impractical.

At this time, we are pleased to announce that Dewberry Engineers Inc., our engineering consultant for this project, has completed the preliminary engineering design and we will be presenting the preliminary construction plans, anticipated project schedule, and other relevant project information at this meeting.

The meeting will be held on **Tuesday, July 19, 2022, at 6:30 p.m. at HOPE Church (12445 Patterson Ave., Richmond, VA 23238)**, at the Big Theatre within the HOPE Kids wing.

For your convenience, attached to this letter is a map showing the project alignment (red line) and the parcels (shaded green) adjacent or within the alignment. By receiving this letter, your property was identified as being located adjacent or within the limits of the project alignment and will see the most activity during the replacement of this pipeline. However, we do recognize that there may be indirect impacts of this project to other residents in your community, and we will be providing general project information to all neighboring communities and residents under separate cover and through our project website.

## DEPARTMENT OF PUBLIC UTILITIES

---

We sincerely hope to see you at the meeting, but if you are unable to attend, please know that the presentation, along with other project information will be posted to the Public Utilities project website afterwards and DPU staff is always available to speak with you at your convenience by contacting our office at (804) 556-5835 or by email at [utilities@goochlandva.us](mailto:utilities@goochlandva.us).

Very respectfully,

Matt Longshore, PE  
Director of Public Utilities  
[mlongshore@goochlandva.us](mailto:mlongshore@goochlandva.us)

Cc: Manuel Alvarez, Interim County Administrator  
Jo Ann Hunter, Deputy County Administrator  
Ken Peterson, District 5 Supervisor
